PRODUCT TECH SHEET

PRODUCT	DESCRIPTION
KIRIPLY MAPLE	Premium Plywood with KIRI RC Maple face

SPECIFICATIONS

Technology:	Patented KIRI face on FSC Certified Acacia and Eucalyptus (AA Grade) Core
Species:	Premium KIRI RC Maple face ***Other species available upon request ***

KIRIPLY is a perfect alternative to traditional A, B or C grade plywood. Why settle for inferior materials and defects, when there is the perfect alternative. KIRIPLY is readily available and can be used to replace any plywood currently on the market. KIRIPLY is conveniently UV coated and ready to go directly into production. Use this material to replace traditional plywood in all applications.

Example Components: Cabinet and Furniture End Panels, Drawer bottoms, UV Cabinet Interiors, Euro Cabinet Doors, Drawer Sides, etc.
